

Jakarta EE Spec Committee - September 2nd, 2026

Attendees (present in bold):

Kenji Kazumura - Fujitsu - Takahiro Nagao

Emily Jiang - IBM - **Tom Watson**

Dmitry Kornilov - Oracle, **Robert Patrick**

Andrew Pielage (chair) - Payara

David Blevins - Tomitribe - Jean-Louis Monteiro, Cesar Hernandez

Ivar Grimstad - PMC Representative

Arjan Tijms - Omnifish OU - Elected Participant Member Representative

Werner Keil - Committer Member

Jun Qian - Primeton Information Technologies - Enterprise Member

Zhai Luchao - Shandong Cvicse Middleware Co. - Enterprise Member

Guest - Jakarta EE 12 co-release coordinators: **Jared Anderson, James Perkins**

Eclipse Foundation: Tanja Obradovic

Past business / action items:

- Approval is requested for the minutes from the August 19th, 2026 meeting as drafted - **Approved**

Agenda:

- [Jakarta EE 12 Update](#) [Jared Anderson]
 - [Dashboard](#)
 - [Platform Minutes](#)
 - CDI 5.0 release ballot up for view
 - Authorization potentially moving into Web Profile in the upcoming milestone

- Steering committee pushing for a more accurate release date for Web Profile and Platform
- Ongoing tracking [spreadsheet](#) of specifications progressing through the [JESP](#) specification version [lifecycle](#)
 - Check on Progress review for Jakarta Config
 - Ondrej is aware of the need for a progress and is looking to submit one after the summer holidays:
<https://www.eclipse.org/lists/config-dev/msg00275.html>
 - Check on progress of [Termination Review](#) for Jakarta RPC
 - *Carry over from previous call: check up on [termination review](#)*
 - New CCR come in for EE 11, complaining about failures on Java 25 (in Core Profile)
 - There is some confusion of whether it is required to run the Core Profile TCK for Web Profile or Platform certification
 - The Platform specification doesn't appear to mention it:
<https://jakarta.ee/specifications/platform/11/jakarta-platform-spec-11.0#a3252>
 - Is this a loophole/omission?
 - We should look to clarify this for EE 12
 - Emily to raise an issue on the Platform-TCK project to address this
 - Do we need a CCR review checklist?
 - This would detail which TCKs need to be run, and how many tests are expected in each TCK.
 - The number of the tests changes over time due to challenges or other updates, or other options (e.g. optional tests)
 - Maintaining this manually can be problematic and time consuming
 - Old published TCK results for Payara appear to be missing:
<https://github.com/jakartaee/platform/issues/1092#issuecomment-5477915738>
 - The URL of the results has changed - Andrew to poke someone
 - PR template for Specifications needs updating to not mention IP log:
<https://github.com/jakartaee/specifications/pull/927>

- It already isn't mentioned on our file:
https://raw.githubusercontent.com/jakartaee/specification-committee/refs/heads/master/spec_review_checklist.md
- EFSL version: the latest version is 2.0 [Emily]
 - Check for any updates or pushback from Emily's [email](#)
 - No pushback and checklist updated - we can mark this as done
- Issue [#74](#) - TCK challenge automatic acceptance - [Andrew Pielage]
 - Check in on progress of pull requests
- Issue [#85](#) - Document Jenkins Maven Publication Jobs [Emily Jiang]
 - *Carry over from previous call: Added to [checklist](#) and [PR template](#)*
 - Check for any further actions and close if none
 - No further actions - close
- Issue [#89](#) - SHA512
 - Discuss and assign owner
 - Andrew to take
- Promoting TCKs is a collective effort [Ivar Grimstad]
 - *Carry over from previous call*
 - *Probably worth doing a refresher course when there are more members present*
 - *Can we also document them in our GitHub repo?*
<https://github.com/jakartaee/specification-committee>
 - *Tools repository where the scripts exist:*
<https://github.com/jakartaee/specification-tools/tree/master/promotion>
 - Timeboxed demonstration when we have time and enough members present
 - Todo (ivar): Add a link to the CI instance and [job](#) with a couple of bullet points explaining it
- Issue [#44](#)
 - Review issue for updates, and close if not still relevant

- Closed
- Issue [#43](#)
 - Review issue for updates, and close if not still relevant
 - Closed
- Issue [#55](#) - TCK Archive Format
 - Check for any feedback
 - On hold for now. Waiting for concrete ask from MicroProfile
 - In absence of any feedback - we're closing this. We can reopen if required
 - Closed
- Review other [open issues](#):
 - Determine which issues to label as “enhancement” and add to our [board](#)
 - Close issues which are no longer relevant or have been dealt with
