Content & other updates	11 June - Some of the video interview recordings are edited and we have started promoting them on social. Here is the link. - The implementation of "Learning hub" and "Specification" pages are still in works. - The policy guide for the Jakarta EE User Group is being finalised internally and will be shared with the marketing committee members on the next call. 28 May - The mockups for "Learning hub" and "Specification" pages are submitted to the webdev team and being implemented. The OCX video interview recordings are being edited and will be promoted on our channels in Q2. 14 May - Review website (soft launch) 30 April - The mockups for "Learning hub" and "Specification" pages are submitted to the webdev team and are being implemented. JakartaOne website updates The OCX video interview recordings will be edited and promoted on our channels in Q2. - We are working on a policy page for the Jakarta EE user group, the logo is ready and shared with Kenji to use for their event 16 April - The "What is Jakarta EE" page is now live

	• “Learning hub” and Specification pages are being revamped. Mockups are in works and plan to launch these in Q2 • We have the mock ups for the main page and key pages including JakartaOne Livestream, in-person, Tech Talk, templates for the upcoming events and more. The agency is incorporating the feedback in WordPress. • Jakarta EE User Group ○ Jakarta EE user group was created in Japan! Congratulations! ○ The first meetup was earlier today. About 40 attendees. And 66 followers ■ Two talks were given. ○ https://jakartaee.doorkeeper.jp/ ○ We are working on creating a logo and policy to add to the website ○ Can we find out how this overlaps with potential JUG ○ Suggested having a report post event would be good
Jakarta EE Long-Term Roadmap 2026/27	11 June • Any updates? (from steering committee) • No further input from marketing committee members since last meeting - Dominika will take it further with the feedback we’ve received so far 28 May • Email summarising both proposals from Ivar now shared with both marketing and steering committees - please contribute if you have something new to add 14 May • Importance of roadmap definition for marketing activities • Liaise with Steering committee - provide input and feedback Jakarta EE long-term roadmap • One of the objectives for the strategic goal “Deliver future Jakarta EE specification releases” (Jakarta EE Program Plan) • Existing Steering Committee threads are: ○ “[DISCUSS] AI Roadmap for Jakarta EE” ○ “[DISCUSS] Jakarta EE High Level Roadmap” • AI Roadmap for Jakarta EE email has this proposal open for discussion ○ 2024 Jakarta EE 11 is perfectly capable of integration with AI in enterprise systems with the use of libraries like langchain4j-cdi, Omnihai, etc. Most of the Jakarta EE implementations also provide similar functionality.

	○ 2026 The possible inclusion of Jakarta NoSQL to enable use of more "unstructured" datasources, the enhancements in Jakarta Persistence, and other specifications, as well as the support of newer Java versions, make Jakarta EE 12 even more ready for AI integration. ○ 2028 Jakarta EE 13 will offer full AI support with the Jakarta Agentica Artificial Intelligence specification and more. ○ 2030 This is probably a little too far ahead to have anything tangible at this moment. But visions are always good to have.
